

# My businesses Internet is:

Slower than dial-up.

The reason I scream into my pillow at night.

As reliable as road construction being completed on time.

Still buffering...

It's 2019, having outages and slow Internet speeds should be a thing of the past. At Fatbeam, we understand how important reliability is when it comes to your businesses Internet. Our Fatbeam owned fiber network offers speeds up to 400g in Bend. Through our Network Operations Center and guaranteed Service Level Agreements (SLA), we make sure our fiber is always ready to support your needs.

**Do more with your money – let's talk and figure out how we can satisfy your network needs!**
